ABSTRACT

The Pandemic brought huge problems in the global community not only in the economic sector but also it has a psychological impact to idle individuals who lost their jobs. Amidst the Pandemic Situations there are also helpful groups who are willing to devote and spent their time in conducting Free International Webinars. IDYM Foundation Philippines and in collaboration with the International Human Rights Movement Philippines (IHRM-Phils, Inc) will be conducting series of International Webinars which will tackle about Human Rights, Educational Technology related issues, and Research Related topics that can help our shape up our individuals and make them more productive and think of other ways to survive from the pandemic we are facing right now. The purpose of this study is to strengthen the collaboration between other NGOs or Civil Society Organization in this time of pandemic that we can work together to support our community in other ways such as by giving free webinars that will help shape their futures.

Keywords: Collaboration, IDYM, IHRM, Pachyderm Tales

INTRODUCTION

The Pandemic brought huge problems in the global community not only in the economic sector but also it has a psychological impact to idle individuals who lost their jobs. Amidst the Pandemic Situations there are also helpful groups who are willing to devote and spent their time in conducting Free International Webinars and other humanitarian activities. It also explores the synergy produced by the entire governance system participated in by various government sectors through collaboration as an important factor of its more successful control of the pandemic compared with other countries, (Choi, 2020). The findings of ther NGO were compared to prior to the pandemic were working less individuals were receiving less income, with expenses staying the same or increasing. In other words indicators shows that the effect on welfare has been inconsistent, (Wild et al., 2021). IDYM Foundation Philippines and in collaboration with the International Human Rights Movement Philippines (IHRM-Phils, Inc) will be conducting series of International Webinars which will tackle about Human Rights, Educational Technology related issues, and Research Related topics that can help our shape up our individuals and make them more productive and think of other ways to

survive from the pandemic we are facing right now. Other companies are supporting society and vulnerable individuals through partnerships with non-governmental organizations (NGOs) or foundations to create collaborations with different that provides food, health, social and technological support to society and vulnerable individual, To the best of our knowledge, this is the first study that examines the support provided by companies to society during the COVID-19 pandemic in the European context, (Raimo et al., 2021).

The Effects of the Pandemic brought up resurgence of collectives in civil society organisations and reflexivity and social bounciness inherent within these collective actions that contributed to covid assistance efforts within the context of India, (Wagh, 2021). The United Nations allocated US\$2 billion for the Global Pandemic Humanitarian in Response to the plans and programs of the following agency, WHO, UNICEF, and the WFP to reach out to the most affected communities and provide them with food, water and other medical support. (Mardones et al., 2020). The purpose of this study is to strengthen the collaboration between other NGOs or Civil Society Organization in this time of pandemic that we can work together to support our community in other ways such as by giving free webinars, conferences, and other humanitarian activities that will help shape their futures.

OBJECTIVES:

The scope of the study will focus on:

1. To ensure Zero hunger and improved nutrition and promote sustainable development.
2. To ensure equitable quality basic education and promote lifelong learning opportunities to all.

METHODOLOGY:

To address the key research objectives, this research used both qualitative research design. The qualitative data supports the quantitative data analysis and results. The study has been conducted in the area of Zambales. The result obtained is triangulated since the researcher utilized the qualitative and quantitative data types in the data analysis. The study area, data sources, and sampling techniques were discussed under this section. The data collection process focus on the primary data which were more reliable and have more confidence level of decision-making with the trusted analysis having direct intact with occurrence of the events. Google form will be use as a medium instrument in gathering and retrieving the data accurately. A likert scale of yes or no will be used as part of the selection are widely used to measure attitudes and opinions with a greater degree of shade.

RESULTS AND DISCUSSIONS:

1. The International Human Rights Movement conducted a feeding program to end Poverty

Conducted at St. Anthony of Padua Parish Hall in cooperation with Parish Pastoral Council. The said program is aligned with one of the SDGs in United Nations Zero Hunger and to end hunger, achieve food security and improved nutrition and promote sustainable development.

2. The International Human Rights Movement, IDYM Philippines and Pachyderm Tales conducted series of free webinars
